## Anchorage Day Trips | Redoubt Bay Bear Viewing Flight Safari

2024

Alaska Shore Excursions | Day Tours

Anchorage to Anchorage

### INTRODUCTION

View Alaska black and brown bears in their natural habitat on a guided, fly-out bear viewing trip to Redoubt Bay Lodge.

Located 70 miles southwest of Anchorage near the beautiful entrance of Lake Clark National Park and Preserve, Redoubt Bay is home to one of the most concentrated and viewable bear populations in the state of Alaska. As your tour begins, you'll sit aboard a covered pontoon boat with our experienced naturalist guides through the chain of Big River Lakes. These play host to sockeye and Coho salmon runs and are a popular feeding site for the bears.

**"Whats Included"** - Intimate, 50 minute scenic flightseeing float plane tour with window seat and 2-way headset from Anchorage - Redoubt Bay Field Guide with bear, flora, and fauna facts - Homemade lunch in the cozy, rustic Redoubt Bay Lodge - Interactive experience with Alaska natural history guides - Alaska brown and black bear watching via covered pontoon boat - Anchorage hotel transfer to the Lake Hood float plane base
